

January
11, 2007

Dear Parents,

At our last Annual General Meeting, in May of 2007, our Board President Fred Santini noted that the Shining Through Centre would be investigating opportunities for future expansion. Shining Through very pleased to report that we are now completing negotiations to bring the Beecroft Learning Centre into the Shining Through family. This location will enable us to reach out to more families and children with Autism.

The Beecroft Learning Centre, located in the Yonge and Sheppard area of North Toronto, has a history and mission similar to ours. Like Shining Through they have an ABA oriented curriculum and operate out of a beautifully renovated century home.

We are very excited that the coming together of two great legacy centres will enhance not only our visibility but most importantly increase our ability to serve more children in a wider geographical service area.

We still have some work to do to complete our due diligence before we make a more formal announcement to the community at large. In the interim, I am very pleased to share this great news with you all and I will keep you posted with more specifics and timelines as we finalize our negotiations.

If you have any question please do not hesitate to call me at the Centre.

Thank-you,

David A. Clement
Executive Director.
